Schreiben NO-2020-35845244-APN-DNPV#SENASA vom 02.06.2020

### **COURTESY TRANSLATION**

I am writing to you regarding the phytosanitary requirements established by Argentina for the entry of *Carum carvi* grains intended for consumption, from your country.

In this regard, I inform you that the phytosanitary requirements regarding stored grain pests have been updated and the *Callosobruchus maculatus* pest associated with said product has been identified.

Due to the aforementioned, the proposed phytosanitary requirements for *Carum carvi* grains are listed below:

Phytosanitary Certificate stating the following as an Additional Declaration: The consignment was inspected and found free from *Trogoderma* spp and *Callosobruchus maculatus*.
