Mrs.  
REPRESENTATIVE / DIRECTOR  
National Plant Protection Organization  
Official Veterinary Services

ASUNTO: Acceptance of Phyto Certificates and sanitary zoo during a state of sanitary emergency by COVID - 19

Dear Sir or Madam:

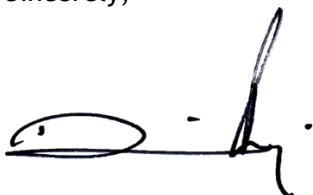

Taking into account the public health situation that is occurring worldwide, which has led countries to enact preventive health quarantine conditions for people, the closure of borders and the limitation of flights for both passengers and parcels , which has generated a significant decrease in the development of activities related to foreign trade.

In this sense, the Colombian Agricultural Institute has decided to accept PDF copies of the phytosanitary and zoosanitary certificates during the period of time that the sanitary emergency by COVID 19 lasts, with the commitment to send the original documents later as a measure to mitigate the negative impact that is taking place in world trade in agricultural products.

It is essential that the scanned copies be sent to the mail to the official emails: subgerencia.frontera@ica.gov.co and to the emails of the port of entry in Colombia (see the list that appears attached) and that the originals be sent as soon as the emergency situation is overcome. In addition to the above, and in order to count on your valuable cooperation in both directions against this initiative, we respectfully request that the copy of the Phyto Certificates and zoo sanitary issued by the ICA be accepted, remembering that their authenticity may be validated through the link [https://afrodita.ica.gov.co/consultas\\_cfe/AddCONSULTAS\\_CFEPage.aspx](https://afrodita.ica.gov.co/consultas_cfe/AddCONSULTAS_CFEPage.aspx), for the pertinent purposes we attach instructions to enter the application.

We appreciate your attention and we remain attentive to your response, confident that in this way we can maintain the supply market for plant-based products and commodities among our countries.

Sincerely,

**DIEGO RICARDO ROJAS MOREA**  
Subgerente De Protección Fronteriza
