

## Import Requirements for Used Farming Equipment & Agricultural Machinery

### Following are Mandatory Import Requirements:

- Valid import permit is required, and should be applied for prior to importation.
- Upon arrival the used farming equipment or agricultural machinery shall be subjected to Biosecurity Authority of Fiji for inspection at the port.
- These implements should be free of soil and other associated extraneous and foreign matters.
- When the consignment is in the country, it has to go through BAF procedures and charges will apply accordingly.

### What will the Importer do:

- To apply for an import permit well in advance.
- Importer must meet the requirements of the import permit.
- Importer must follow the BAF procedures put in place with regards to importation at our borders and comply with Fiji's rules and regulations.

*For more information on this please contact BAF's nearest office or on 3312512*
