State Institution «Main State Inspectorate for Seed Breeding, Quarantine and Plant Protection» of the Republic of Belarus

To: National Plant Protection Organization (NPPO)

Subject: On Entry of Seed Potato to the Republic of Belarus

The State Institution «Main State Inspectorate for Seed Breeding, Quarantine and Plant Protection» provides the following information on subject of the entry of seed potato originated from the countries of the European Union to the Republic of Belarus from the territory of the countries of the European Union.

The entry of seed potato to the Republic of Belarus is carried out in accordance with the Common Phytosanitary Quarantine Requirements to Regulated Articles and Regulated Objects on the Customs Border and in the Customs Territory of the Eurasian Economic Union, approved by the Decision No. 157 of the Eurasian Economic Commission's Council dated 30 November, 2016, and International Plant Protection Convention, Rome, December 6, 1951.

Wherein the graph «Additional declaration» of the phytosanitary certificate, issued by the National Plant Protection Organization of the country-exporter, should obligatory contain the information about that seed potato is produced in pest-free area, places and (or) sites of production, according to the Unified requirements adopted by the Council Decision of the Eurasian Economic Commission as of 30.11.2016 № 157, including *Clavibacter michiganensis ssp. sepedonicus* (bacterial potato ring rot).

We would like to express our appreciation for the cooperation.

Deputy Director
Michael Kishko
