

**Decision of the Collegium of the Food Safety Agency
of the Republic of Azerbaijan**

№41

Baku

26 december 2023

**Phytosanitary norms and rules on regulated articles imported into and transited
through the territory of the Republic of Azerbaijan**

1. General provisions

1.1. This Decision have been prepared in accordance with Articles 3.1.3 and 13 of the Law of the Republic of Azerbaijan "on Phytosanitary Control", "List of quarantine pests that have not been recorded or have limited spread and represent potential danger in the territory of the Republic of Azerbaijan" approved by Decision of the Cabinet of Ministers of the Republic of Azerbaijan dated December 29, 2006 No. 280, Article VII of the International Plant Protection Convention and the International Standards for Phytosanitary Measures No. 12 - "Phytosanitary Certificates", No. 15 - "Regulation of wood packaging material in international trade", No. 20 - "Guidelines for a phytosanitary import regulatory system".

1.2. This Decision aim to prevent the entry and spread of pests from other countries into the territory of the Republic of Azerbaijan and determine the phytosanitary requirements for regulated articles imported into the territory of the Republic and transited through the territory of the Republic of Azerbaijan.

2. 2. Basic Definitions

2.1. Basic definitions used in this Regulation have the following meanings:

2.1.1. pest free area– An area, in which a specific pest is scientifically proved to be absent, and under constant controlled;

2.1.2. pest-free place of production– Place of production, in which a specific pest is scientifically proved to be absent, and under formally constant control;

2.1.3. pest-free production site – A defined part of production site, in which a specific pest is scientifically proved to be absent, and under formally constant control;

2.1.4. consignment in transit – A consignment, which passes through a country without being opened, divided, mixed with other consignments, or repackaged; and being subject to phytosanitary measures;

2.1.5. re-exported consignment – Consignment, which has been imported into a country from which it is then exported;

2.1.6. phytosanitary import requirements – Specific requirements defined by an importing country for consignments under phytosanitary quarantine control;

2.1.7. regulated article - Any plant, plant product, storage place, packaging, conveyance, container, soil and any other organism, object or material capable of harbouring or spreading pests, requiring phytosanitary measures, particularly where international transportation is involved;

2.1.8. fumigation – Treatment of the consignment wholly with a chemical agent influencing in state of gas;

2.1.9. treatment – Officially established procedure for destruction, inactivation or removal of pests, as well as sterilization and devitalisation of pests;

2.1.10. planting and sowing materials - Plants intended for planting, sowing or replanting, or those planted in the soil;

2.1.11. wood packaging materials – Wood or wood products (excluding paper products) used in supporting, protecting or packaging of goods (includes dunnage).

2.2. The other definitions used in this Regulation have the meanings as defined in the Law of the Republic of Azerbaijan "On Phytosanitary Control" and other normative legal acts.

3. General requirements

3.1. Regulated articles carried into the territory of the Republic of Azerbaijan must be free from the pests listed in the "List of quarantine pests that have not been recorded or have limited spread and potentially hazardous for the country in the territory of the Republic of Azerbaijan" approved by the Decision of the Cabinet of Ministers of the Republic of Azerbaijan No 280 dated December 29, 2006 and must be complied with these rules.

3.2. Consignments included into the "Unified List of goods subject to veterinary, phytosanitary and sanitary control", approved by Decision of the Cabinet of Ministers of the Republic of Azerbaijan dated June 17, 2016 No. 231, must be accompanied by a phytosanitary certificate issued by the competent authority of the exporter and reexporter country during import into the territory of the Republic of Azerbaijan.

3.3. Phytosanitary certificates for export or re-export must be in English or Russian in accordance with the requirements of the International Standard for Phytosanitary Measures No. 12 ("Phytosanitary Certificates"), approved by International Plant Protection Convention.

3.4. The import of regulated articles with high phytosanitary risk (including cut flowers, as well as planting and sowing materials brought for selection and scientific research purposes) that meet these Regulations is allowed to import in hand luggage, by international mail transportation and carrier companies only if those products are accompanied by an export phytosanitary certificate issued by the National Plant Protection Organization of the exporting country.

3.5. For plants and plant products to be imported to the Republic of Azerbaijan for the first time from any country, a relevant report on the results of the phytosanitary risk analysis of pests must be submitted to the Food Safety Agency of the Republic of Azerbaijan (hereinafter - the Agency) by the National Organization for Plant Protection of the exporting country and those plants and plant products can be allowed to import if their risks evaluated as permissible.

3.6. In case of detection of live pests or other noncompliances in regulated articles imported into the territory of the Republic of Azerbaijan, the Agency makes a corresponding decision for fumigation of the product together with packing material at the phytosanitary control stations or designated places, sending into processing for selection, repackaging or using for other purposes, when impossible on sending back or destruction together with the package taking into account importer's request.

Actions taken in relation to regulated articles, where noncompliance has been detected, are carried out at the expense of legal and individual entities (consignment owners)

3.7. Multi-cycle wooden packaging materials brought to the territory of the Republic of Azerbaijan must meet the following requirements in accordance with the International Standard for Phytosanitary Measures No. 15 ("Regulation of wood packaging material in international trade") approved pursuant to the International Plant Protection Convention:

3.7.1. Wooden packaging materials must be heat-treated or fumigated;

3.7.2. It must be officially marked with a stamp, consisting of the International Plant Protection Convention logo and 3 codes (country, producer, and applied method), according to the form specified in the International Standard for Phytosanitary Measures No. 15. The stamp must be legible and not drawn by hand;

3.7.3. It must be made of debarked wood and not have pieces of bark larger than 3 cm in width and 50 cm² in total area.

3.8. The requirements mentioned in clause 3.7 of this Regulation do not apply to:

3.8.1. wooden packaging materials made of wood with a thickness of 6 mm and less;

3.8.2. thermally treated barrels for alcoholic beverages, gift boxes, sawdust and wood wool, wooden components permanently attached to trucks and containers, plywood, chipboard, DVP, manufactured using chemicals and other processing methods and similar materials.

3.9. Wood packaging materials imported from countries where the pine wood nematode (*Bursaphelenchus xylophilus*), Asian long-horned beetle and black and white longhorn (*Anoplophora glabripennis* and *Anoplophora chinensis*) are spread should be subjected to phytosanitary expertise when they are marked, including when signs of infection are observed.

3.10. The use of grass, stubble, wood shavings, leaves and similar plant origin materials, which can be carriers of quarantine pests, as packing material is prohibited.

3.11. consignments under phytosanitary control may only be used when the results of the phytosanitary quarantine examination of samples taken from those consignments are admissible. Until the end of the examination, the product can be stored in phytosanitary control points or in other warehouses owned or leased by the importer, in agreement with the customs authorities, in primary packaging materials and under conditions that will exclude the spread of pests, and not to be transported or sold to other places.

3.12. Live pests subject to quarantine can be brought to the territory of the Republic of Azerbaijan only for scientific research purposes and after the risk assessment is carried out and the results are considered acceptable.

3.13. On the packaged planting and sowing materials imported to the territory of the Republic of Azerbaijan, the product name, country of origin, place of production, manufacturer, and information about non-genetic modification must be in Azerbaijani as well as other languages. Also, it must be ensured that there are appropriate warning letters and signs on the tares of agricultural products treated with chemical and biological preparations. Seeds treated with chemical or biological preparations must be packed and not transported open.

3.14. Regulated articles, transited through the territory of the Republic of Azerbaijan are regulated by the Regulation "Implementation of phytosanitary control over materials under quarantine control transported through the territory of the Republic of Azerbaijan" approved by Decision of the Cabinet of Ministers of the Republic of Azerbaijan dated December 29, 2006 No. 280.

3.15. Forest materials (wood) must be transported in closed vehicles, containers or covered when in transit from the territory of the country from April 1 to October 31 of the year.

4. Phytosanitary quarantine requirements for seeds and plants for planting

4.1. Planting (seedlings, cuttings, saplings, bulbs, tubers, etc.) and seed materials must be free from quarantine weed seeds *Ambrosia psilostachya*, *Ambrosia artemisiifolia*, *Ambrosia trifida*, *Acroptilon repens*, *Solanum carolinense*, *Solanum triflorum*, *Solanum elaeagnifolium*, *Bidens pilosa*, *Ipomoea lacunosa*, *Solanum rostratum*, *Cenchrus spinifex*, *Cenchrus longispinus*.

4.2. Special phytosanitary quarantine requirements for planting and sowing materials are listed in table 1.

Table 1

Special phytosanitary quarantine requirements for planting and sowing materials

№	Regulated articles (by HS code)	Special phytosanitary quarantine requirements
Seeds and plants for planting		
1	Cereal seeds 1001 11 000 0 1001 91 100 0 1001 91 200 0 1001 91 900 0 1002 10 000 0 1003 10 000 0 1004 10 000 0 1005 10 130 0 1005 10 150 0 1005 10 180 0 1005 10 900 0 1006 10 100 1 1006 10 100 9 1007 10 100 0 1007 10 900 0 1008 10 000 0 1008 21 000 0 1008 30 000 0 1008 40 000 0 1008 50 000 0 1008 60 000 0 1008 90 000 0	The seeds, containers, packaging and means of transport must be free from quarantine pests, weed seeds mentioned in clause 4.1 of these requirements and <i>Trogoderma granarium</i> , <i>Callosobruchus spp.</i> , <i>Caulophilus latinasus</i> and <i>Zabrotes subfasciatus</i> .
2	Wheat (<i>Triticum spp.</i>) and Triticale (x <i>Triticosecale</i>) seeds 1001 11 000 0 1001 91 100 0 1001 91 200 0 1001 91 900 0 1008 60 000 0	Considering the requirements of part 1 of this table, must be free from <i>Anguina tritici</i> , <i>Xanthomonas translucens pv. translucens</i> and <i>Tilletia indica</i> . When importing the seeds from countries where <i>Tilletia indica</i> is spread, one of the

		<p>following statement must be mentioned in the phytosanitary certificate:</p> <p>1) the seeds were produced in a pest free production site or place for the <i>Tilletia indica</i>.</p> <p>or</p> <p>2) the seeds were tested and found free from the <i>Tilletia indica</i>.</p>
3	<p>Rye seeds (<i>Secale L.</i>) 1002 10 000 0</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Tilletia indica</i>.</p> <p>When importing the seeds from countries where <i>Tilletia indica</i> is spread, one of the following statement must be mentioned in the phytosanitary certificate:</p> <p>1) the seeds were produced in a pest free production site or place for the <i>Tilletia indica</i>.</p> <p>or</p> <p>2) the seeds were tested and found free from the <i>Tilletia indica</i>.</p>
4	<p>Barley seeds (<i>Hordeum vulgare</i>) 1003 10 000 0</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Barley stripe mosaic virus</i>.</p>
5	<p>Oat seeds (<i>Avena sativa</i>) 1004 10 000 0</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Anguina tritici</i>.</p>
6	<p>Corn seeds (<i>Zea mays</i>) 1005 10 130 0 1005 10 150 0 1005 10 180 0 1005 10 900 0 0712 90 110 1 0712 90 110 9</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Erwinia stewartii</i>, <i>Cochliobolus carbonum</i>, <i>Stenocarpella macrospora</i>, <i>Stenocarpella maydis</i> and <i>Bipolaris maydis</i>.</p> <p>When importing the seeds from countries where <i>Erwinia stewartii</i> is spread, one of the following statement must be mentioned in the phytosanitary certificate:</p> <p>1) the seeds were produced in a pest free production site or place for the <i>Erwinia stewartii</i>.</p> <p>or</p> <p>2) the seeds were tested and found free from the <i>Erwinia stewartii</i>.</p>
7	<p>Rice seeds (<i>Oryza spp.</i>) 1006 10 100 1 1006 10 100 9</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Aphelenchoides besseyi</i>, <i>Xanthomonas oryzae pv. oryzae</i>, <i>Xanthomonas oryzae pv. oryzicola</i>.</p>

8	Buckwheat seeds (<i>Fagopyrum esculentum</i>) 1008 10 000	Considering the requirements of part 1 of this table.
9	Soybean seeds (<i>Glycine max</i>) 1201 10 000 0	Considering the requirements of part 1 of this table, must be free from <i>Cercospora kikuchii</i> .
10	Pea seeds (<i>Pisum sativum</i>) 0713 10 100 1 0713 10 100 9	Considering the requirements of part 1 of this table, must be free from <i>Pseudomonas syringae</i> pv. <i>pisi</i> .
11	Bean seeds (<i>Phaseolus vulgaris</i>) 0713 33 100 1 0713 33 100 9	Considering the requirements of part 1 of this table, must be free from <i>Xanthomonas axonopodis</i> pv. <i>phaseoli</i> . When importing the seeds from countries where <i>Xanthomonas axonopodis</i> pv. <i>phaseoli</i> is spread, one of the following statement must be mentioned in the phytosanitary certificate: 1) the seeds were produced in a pest free production site or place for the <i>Xanthomonas axonopodis</i> pv. <i>phaseoli</i> . or 2) the seeds were tested and found free from the <i>Xanthomonas axonopodis</i> pv. <i>phaseoli</i>
12	Peanut seeds (<i>Arachis hypogaea</i>) 1202 30 000 0	Considering the requirements of part 1 of this table, must be free from <i>Ralstonia solanacearum</i>
13	Sunflower (<i>Helianthus spp.</i>) seeds 1206 00 100 0	Considering the requirements of part 1 of this table, must be free from <i>Plasmopara halstedii</i>) and <i>Diaporthe (Phomopsis) helianthi</i> When importing the seeds from countries where <i>Plasmopara halstedii</i> is spread, one of the following statement must be mentioned in the phytosanitary certificate: 1) the seeds were produced in a pest free production site or place for the <i>Plasmopara halstedii</i> or 2) the seeds were tested and found free from the <i>Plasmopara halstedii</i>
14	Cotton seeds (<i>Gossypium spp.</i>) 1207 21 000 0	Considering the requirements of part 1 of this table, must be free from <i>Glomerella gossypii</i> and <i>Anthonomus grandis</i>

		<p>The seeds must be treated with internationally accepted methods against pests that can be carried on the surface of the seed.</p> <p>The following statement must be mentioned in the phytosanitary certificate:</p> <p>the seeds were tested and found free from the <i>Glomerella gossypii</i></p>
15	<p>Cucurbits seeds (<i>Cucurbitaceae</i>) 1207 70 000 0 1207 99 960 0 1209 91 800 0</p>	<p>The seeds must be free from <i>Acidovorax citrulli</i>.</p>
16	<p>Alfalfa seeds (<i>Medicago sativa</i>) 1209 21 000 0</p>	<p>Considering the requirements of part 1 of this table, must be free from <i>Ditylenchus dipsaci</i>, <i>Clavibacter insidiosus</i>.</p> <p>The following statement must be mentioned in the phytosanitary certificate:</p> <p>the seeds were tested and found free from the <i>Ditylenchus dipsaci</i> and <i>Clavibacter insidiosus</i></p>
17	<p>Sugar beet seeds (<i>Beta vulgaris</i>) 1209 10 000 0 1209 91 300 0</p>	<p>Considering the requirements of part 1 of this table, the product must be free from <i>Beet necrotic yellow vein benyvirus</i>.</p> <p>The following statement must be mentioned in the phytosanitary certificate:</p> <p>The seeds have been tested for Beet necrotic yellow vein benyvirus and found free from this organism.¹</p>
18	<p>Seeds of plants belonging to the Solanaceous family (tobacco, aubergines etc.), except true seeds of potato (<i>Solanum tuberosum</i>) 1209 91 800 0 1209 99 990 1</p>	<p>Considering the requirements of part 1 of this table must be free from seeds and fruits of all types of quarantine weed plants.</p>
19	<p>Pepper seeds (<i>Capsicum spp.</i>) toxumlar 1209 91 800 0</p>	<p>The seeds must be free from <i>Potato spindle tuber viroid</i> and <i>Tomato brown rugose fruit virus</i></p> <p>The following statement must be mentioned in the phytosanitary certificate:</p>

		the seeds were tested and found free from the <i>Potato spindle tuber viroid</i> and <i>Tomato brown rugose fruit virus</i>
20	Tomato seeds (<i>Solanum lycopersicum</i>) toxumları 1209 91 800 0	<p>The seeds must be free from <i>Potato spindle tuber viroid</i>, <i>Tomato brown rugose fruit virus</i>, <i>Pepino mosaic virus</i>, <i>Clavibacter michiganensis subsp. michiganensis</i>.</p> <p>The seeds must be treated with internationally accepted methods against pests that can be carried on the surface of the seed.</p> <p>The following statement must be mentioned in the phytosanitary certificate: the seeds were tested and found free from the <i>Potato spindle tuber viroid</i>, <i>Tomato brown rugose fruit virus</i>, <i>Pepino mosaic virus</i>, <i>Clavibacter michiganensis subsp. michiganensis</i>.</p>
21	Seeds of onion species (<i>Allium spp.</i>) 1209 30 000 0 1209 91 800 0	Considering the requirements of part 1 of this table must be free from <i>Ditylenchus dipsaci</i> and <i>Xanthomonas axonopodis pv. allii</i>
Seed potato		
22	Potato (<i>Solanum tuberosum</i>) seeds and microtubers, including microplants, in test bottles 0602 90 500 0 1209 91 800 0	<p>The seeds must be free from <i>Potato spindle tuber viroid</i>;</p> <p>The microtubers and microplants must be free from <i>Andean potato latent tymovirus</i>, <i>Tomato spotted wilt virus</i>, <i>Impatiens necrotic spot virus</i>, <i>Ralstonia solanacearum</i>, <i>Candidatus liberibacter solanacearum</i> and the following statement must be declared in the phytosanitary certificate: The plants were produced in vitro and free from regulated pests.</p>
23	Seed potato tubers (except microplants and micro-tubers) 0701 10 000 1 0701 10 000 9	The tubers must be free from <i>Tecia solanivora</i> , <i>Epitrix cucumeris</i> , <i>Epitrix tuberis</i> , <i>Phthorimaea operculella</i> , <i>Potato Andean latent tymovirus</i> , <i>Phoma foveata</i> , <i>Premnotrypes spp.</i> , <i>Ditylenchus dipsaci</i> , <i>Ditylenchus destructor</i> , <i>Globodera pallida</i> , <i>Globodera rostochiensis</i> , <i>Meloidogyne chitwoodi</i> , <i>Meloidogyne fallax</i> , <i>Ralstonia solanacearum</i> , <i>Clavibacter michiganensis subsp. sepedonicus</i> , <i>Xiphinema rivesi</i> , <i>Potato spindle tuber viroid</i> ,

		<p><i>Candidatus liberibacter solanacearum</i>, <i>Tomato spotted wilt virus</i>, <i>Synchytrium endobioticum</i>, <i>Thecaphora solani</i>.</p> <p>Import of the product from countries where <i>Ralstonia solanacearum</i>, <i>Synchytrium endobioticum</i>, <i>Clavibacter michiganensis subsp. sepedonicus</i> is spread, the following statement must be declared in the phytosanitary certificate: The plants have been grown in a production site and (or) places established as free from <i>Ralstonia solanacearum</i>, <i>Synchytrium endobioticum</i>, <i>Clavibacter michiganensis subsp. sepedonicus</i>.</p> <p>In the section of "Place of origin" in the phytosanitary certificate, must be mentioned the name of the producer and place of production site.</p> <p>Soil primes on seed potatoes should not exceed 1% of the actual weight of the product. Soil thickness on seed potato tubers imported from countries where <i>Ralstonia solanacearum</i> and <i>Globodera rostochiensis</i> is spread should not exceed 0.1% of the actual weight of the product.</p> <p>Potatoes intended for food, feed, and technical purposes should not be declared as seed potatoes.</p>
Seedlings, cuttings and rootstocks of fruit plants		
24	<p>Seedlings and rootstocks of pomaceous, stone and nut plants, including ornamental forms (rooted) 0602 20 200 1 0602 20 200 9</p>	<p>The plants must be free from <i>Grapholita molesta</i>, <i>Carposina sasakii</i>, <i>Rhagoletis pomonella</i>, <i>Popillia japonica</i>, <i>Conotrachelus nenuphar</i>, <i>Icerya purchasi</i>, <i>Pseudaulacaspis pentagona</i>, <i>Pseudococcus comstocki</i>, <i>Anoplophora chinensis</i>, <i>Quadraspidiotus perniciosus</i>, <i>Lopholeucaspis japonica</i>, <i>Anoplophora glabripennis</i>, <i>Ceroplastes rusci</i>, <i>Agrilus mali</i>, <i>Xiphinema rivesi</i>, <i>Rhagoletis cingulata</i>, <i>Ceroplastes japonicus</i>, <i>Meloidogyne fallax</i>, <i>Meloidogyne chitwoodi</i>, <i>Erwinia amylovora</i>, <i>Agrobacterium tumefaciens</i>, <i>Xanthomonas arboricola</i></p>

		<p><i>pv.pruni</i>, <i>Xylella fastidiosa</i>, <i>Tobacco ringspot virus</i>, <i>Tomato ringspot virus</i> and <i>Monilinia fructicola</i>.</p> <p>Import of the planting material from countries where <i>Xylella fastidiosa</i> and <i>Monilinia fructicola</i> is spread, The following statement must be declared in the phytosanitary certificate:</p> <p>1) The plants were produced in a pest free production site or place for the <i>Xylella fastidiosa</i> and <i>Monilinia fructicola</i>). or 2) the plants were tested and found free from the <i>Xylella fastidiosa</i> and <i>Monilinia fructicola</i></p>
25	<p>Cuttings of pomaceous, stone and nut plants, including ornamental forms (unrooted) 0602 10 900 0 0602 20 800 9</p>	<p>The plants must be free from <i>Anoplophora glabripennis</i>, <i>Icerya purchasi</i>, <i>Grapholita molesta</i>, <i>Ceroplastes rusci</i>, <i>Ceroplastes japonicus</i>, <i>Conotrachelus nenuphar</i>, <i>Pseudauleucaspis pentagona</i>, <i>Anoplophora chinensis</i>, <i>Quadraspidiotus perniciosus</i>, <i>Lopholeucaspis japonica</i>, <i>Aromia bungii</i>, <i>Pseudococcus comstocki</i>, <i>Monilinia fructicola</i>), <i>Erwinia amylovora</i>, <i>Candidatus phytoplasma mali</i> and <i>Cryphonectria parasitica</i>.</p>
26	<p>Seedlings, rootstocks and cuttings of plants of the genus <i>Malus</i> 0602 10 900 0 0602 20 200 1 0602 20 200 9 0602 20 800 1 0602 20 800 9</p>	<p>Considering the requirements of part 24 of this table must be free from <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i>, <i>Agrobacterium tumefaciens</i>, <i>Candidatus phytoplasma mali</i> and <i>Agrilus mali</i>.</p> <p>Import of the plants from countries where <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i>, <i>Candidatus phytoplasma mali</i> is spread The following statement must be declared in the phytosanitary certificate:</p> <p>The plants were produced in a pest free production site or place for the <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i> and <i>Candidatus phytoplasma mali</i>.</p>
27	<p>Pear (<i>Pyrus</i>), quince (<i>Cydonia</i>) seedlings, cuttings and rootstocks</p>	<p>Considering the requirements of part 24 of this table must be free from <i>Numonia pyrivorella</i>,</p>

	<p>0602 10 900 0 0602 20 200 1 0602 20 200 9 0602 20 800 1 0602 20 800 9</p>	<p><i>Agrobacterium tumefaciens</i>, <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i> and <i>Candidatus phytoplasma pyri</i></p> <p>Import of the plants from countries where are the <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i> and <i>Candidatus phytoplasma pyri</i> is spread</p> <p>The following statement must be declared in the phytosanitary certificate:</p> <p>1) The plants were produced in a pest free production site or place for the <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i> and <i>Candidatus phytoplasma pyri</i></p> <p>or</p> <p>2) the plants were tested and found free from the <i>Monilinia fructicola</i>, <i>Erwinia amylovora</i> and <i>Candidatus phytoplasma pyri</i></p>
<p>28</p>	<p>Plants of the genus <i>Prunus</i>, in particular seedlings, especially seedlings, rootstocks and cuttings of wild cherry (<i>Prunus mahaleb</i>) and cherry (<i>Prunus avium</i>), including decorative forms</p> <p>0602 10 900 0 0602 20 200 1 0602 20 200 9 0602 20 800 1 0602 20 800 9</p>	<p>Considering the requirements of part 24 of this table must be free from <i>Monilinia fructicola</i>, <i>Xanthomonas arboricola pv.pruni</i>, <i>Agrobacterium tumefaciens</i>, <i>Xylella fastidiosa</i>, <i>Plum pox virus</i> and, <i>Cherry rasp leaf virus</i></p> <p>The following statement must be declared in the phytosanitary certificate:</p> <p>1) The planting material has been tested for <i>Monilinia fructicola</i>, <i>Xanthomonas arboricola pv. pruni</i>, <i>Xylella fastidiosa</i>, Plum pox virus and Cherry rasp leaf virus and has been found free from these organisms.</p> <p>or</p> <p>2) No signs of <i>Monilinia fructicola</i>, <i>Xanthomonas arboricola pv. pruni</i>, <i>Xylella fastidiosa</i>, Plum pox virus and Cherry rasp leaf virus have been observed on the plants in the production areas during the last growing season.²</p>
<p>29</p>	<p>Peach (<i>Prunus persica</i>) and almond (<i>Prunus dulcis</i>) seedlings, cuttings and rootstocks</p> <p>0602 10 900 0 0602 20 200 1 0602 20 200 9</p>	<p>Considering the requirements of part 24 of this table the product must be free from <i>Plum pox virus</i>, <i>Monilinia fructicola</i>, <i>Agrobacterium tumefaciens</i>, <i>Xanthomonas arboricola pv.pruni</i>, <i>Candidatus Phytoplasma</i></p>

	<p>0602 20 800 1 0602 20 800 9</p>	<p><i>phoenicium</i>, <i>Xylella fastidiosa</i>, <i>Peach latent mosaic viroid</i>.</p> <p>The following statement must be declared in the phytosanitary certificate:</p> <p>1) The planting material has been tested for <i>Xanthomonas arboricola pv. pruni</i>, <i>Candidatus Phytoplasma phoenicium</i>, <i>Xylella fastidiosa</i> and Plum pox virus and is found free from these organisms.</p> <p>or</p> <p>2) No signs of <i>Xanthomonas arboricola pv. pruni</i>, <i>Candidatus Phytoplasma phoenicium</i>, <i>Xylella fastidiosa</i> and Plum pox virus (Plum pox virus) have been observed on the plants in the production areas during the last growing season.³</p>

5. Phytosanitary quarantine requirements for vegetables and food potatoes

5.1. The admixture of soil in ware potatoes and other tuber and root vegetables should not exceed 1% of the actual weight of the product.

5.2. Vegetables and ware potatoes must be free from *Spodoptera litura*, *Liriomyza trifolii*, *Liriomyza huidobrensis*, *Liriomyza sativae*, *Bemisia tabaci*, *Tuta absoluta*, *Frankliniella occidentalis*, *Thrips palmi*, *Bactrocera cucurbitae*, *Tecia solanivora*, *Globodera pallida*, *Globodera rostochiensis*, *Phthorimaea operculella*, *Meloidogyne chitwoodi*, *Meloidogyne fallax*, *Xanthomonas axonopodis* pv. *alii*, *Xiphinema rivesi*, *Beet necrotic yellow vein benyvirus*, *Potato spindle tuber viroid*, *Potato Andean latent virus*, *Thecaphora solani*, *Acidovorax citrulli*, *Ralstonia solanacearum* and *Synchytrium endobioticum*.

5.3. Special phytosanitary requirements for vegetables and ware potatoes are listed in table 2.

Tabel 2

Special phytosanitary quarantine requirements for vegetables and ware potatoes

№	Consignment under quarantine control (by Hs code)	Special phytosanitary quarantine requirements
1	<p>Potatoes for food and technical purposes, fresh or chilled (<i>Solanum tuberosum</i>)</p> <p>0701 90 100 0 other than seed</p> <p>0701 90 500 0</p> <p>0701 90 900 0</p>	<p>Considering the requirements of part 5.1 of this table must be free from <i>Epitrix tuberis</i>, <i>Epitrix cucumeris</i>, <i>Thecaphora solani</i>, <i>Tecia solanivora</i>, <i>Phoma foveata</i>, <i>Andean potato latent virus</i>, <i>Phthorimaea operculella</i>, <i>Ralstonia solanacearum</i>, <i>Meloidogyne chitwoodi</i>, <i>Meloidogyne fallax</i>, <i>Globodera pallida</i>, <i>Globodera rostochiensis</i>, <i>Ditylenchus dipsaci</i>, <i>Ditylenchus destructor</i>, <i>Xiphinema rivesi</i>, <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i>, <i>Synchytrium endobioticum</i>, <i>Potato spindle tuber viroid</i>.</p> <p>The product imported from the countries where <i>Ralstonia solanacearum</i>, <i>Synchytrium endobioticum</i>, <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i>, is spread, following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment was produced in a pest free production site or place for the <i>Ralstonia solanacearum</i>, <i>Synchytrium endobioticum</i>, <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i>.</p> <p>or</p>

		2) the consignment was tested and found free from <i>Ralstonia solanacearum</i> , <i>Synchytrium endobioticum</i> , <i>Clavibacter michiganensis subsp. sepedonicus</i>
2	Fresh or chilled tomatoes (<i>Solanum lycopersicum</i>) 0702 00 000 0	The consignment must be free from <i>Tomato brown rugose fruit virus</i> , <i>Pepino mosaic virus</i> , <i>Spodoptera frugiperda</i> , <i>Spodoptera eridania</i> , <i>Spodoptera litura</i> , <i>Spodoptera littoralis</i> , <i>Tuta absoluta</i> , <i>Frankliniella occidentalis</i> , <i>Tetranychus evansi</i> , <i>Cuscuta spp.</i> . Import of the consignment from countries where <i>Tomato brown rugose fruit virus</i> , <i>Pepino mosaic virus</i> is spread, the following statement must be declared in the phytosanitary certificate: 1) "The consignment was produced in a pest free production site or place for the <i>Tomato brown rugose fruit virus</i> , <i>Pepino mosaic virus</i> " or 2) the consignment was tested and found free from <i>Tomato brown rugose fruit virus</i> , <i>Pepino mosaic virus</i> "
3	Turnip-like onions (<i>Allium cepa</i>), shallots (<i>Allium ascalonicum</i>), spring onions (<i>Allium porrum</i>), garlic (<i>Allium sativum</i>) and other bulbous vegetables, fresh or chilled 0703 10 190 0 0703 10 900 0 0703 20 000 0 0703 90 000 0	The consignment must be free from <i>Frankliniella occidentalis</i> , <i>Spodoptera frugiperda</i> .
4	Fresh Cabbage, Cauliflower, Cabbage (kohlrabi), Kale and similar edible vegetables of the <i>Brassica</i> species. 0704 10 000 0 0704 20 000 0 0704 90 100 0 0704 90 800 0	The consignment must be free from <i>Liriomyza trifolii</i> , <i>Liriomyza sativae</i> , <i>Frankliniella occidentalis</i> , <i>Bemisia tabaci</i> , <i>Spodoptera litura</i> , <i>Spodoptera littoralis</i> .
5	Fresh or chilled Lettuce (<i>Lactuca sativa</i>) and chicory (<i>Cichorium spp.</i>). 0705 11 000 0 0705 19 000 0 0705 21 000 0 0705 29 000 0	The consignment must be free from <i>Bemisia tabaci</i> , <i>Spodoptera littoralis</i> , <i>Liriomyza trifolii</i> , <i>Liriomyza huidobrensis</i> , <i>Liriomyza sativae</i> .

		If the Lettuce (<i>Lactuca sativa</i>) and chicory (<i>Cichorium</i> spp.) imported with root, they must be free from <i>Meloidogyne fallax</i> in addition to the above paragraph.
6	Carrot (<i>Dacus</i>), turnip-radish (<i>Brassica rapa</i>), kitchen (red) beet, goat's beard (<i>Tragopogon</i>), celery root (<i>Apium</i>), red radish (<i>Raphanus sativus</i>) and other root vegetables eaten fresh and chilled, 0706 10 000 0 0706 90 100 0 0706 90 300 0 0706 90 900 0	The consignment must be free from <i>Phymatotrichopsis omnivora</i> , <i>Globodera pallida</i> , <i>Globodera rostochiensis</i> , <i>Meloidogyne chitwoodi</i> , <i>Meloidogyne fallax</i> , <i>Beet necrotic yellow vein benyvirus</i> .
7	fresh or chilled Cucumber (<i>Cucumis sativus</i>) and gherkins. 0707 00 050 0 0707 00 900 0	The consignment must be free from <i>Bactrocera cucurbitae</i> , <i>Dacus ciliatus</i> , <i>Spodoptera frugiperda</i> , <i>Frankliniella occidentalis</i> , <i>Bemisia tabaci</i> .
8	Turnip (<i>Brassica rapa</i>), Swiss chard (<i>Beta vulgaris</i>), fodder legumes, fodder cabbage (<i>Brassica oleracea var. acephata</i>) 0706 90 900 0 1214 90 100 0 1214 90 900 0	The consignment must be free from <i>Meloidogyne chitwoodi</i> , <i>Meloidogyne fallax</i> , <i>Beet necrotic yellow vein benyvirus</i> .
9	Sugar beet (<i>Beta vulgaris</i>) 1212 91 800 0	The consignment must be free from <i>Meloidogyne chitwoodi</i> , <i>Meloidogyne fallax</i> , <i>Beet necrotic yellow vein benyvirus</i> .
10	Fresh, chilled, shelled Legumes (<i>Fabaceae</i>). 0708 10 000 0 0708 20 000 0 0708 90 000 0	The consignment must be free from <i>Spodoptera</i> spp. and <i>Callosobruchus</i> spp..
11	Leguminous vegetables (<i>Fabaceae</i>) (without shell) 0708 10 000 0 0708 20 000 0 0708 90 000 0 0713 10 900 0 0713 20 000 0 0713 31 000 9 0713 32 000 9 0713 33 900 0 0713 34 000 0 0713 35 000 0 0713 39 000 9	The consignment must be free from <i>Caulophilus latinasus</i> , <i>Zabrotes subfasciatus</i> , <i>Caryedon serratus</i> , <i>Callosobruchus</i> spp., <i>Trogoderma granarium</i> .

	0713 40 000 9 0713 50 000 9 0713 60 000 0 0713 90 000 9	
12	Manioc (<i>Manihot esculenta</i>), arrowroot (<i>Maranta</i>), salep (Orchis L.), topinambur (<i>Helianthus tuberosus</i>), sweet potato or yam (<i>Ipomoea batatas</i>) and other similar legumes and tubers of a high starch or inulin content, fresh, chilled or dried, whole, sliced or in pellets; the kernel of the sago palm 0714 10 000 0 0714 20 100 0 0714 20 900 0 0714 90 200 0 0714 90 900 0	The consignment must be free from <i>Xiphinema rivesi</i> , <i>Meloidogyne chitwoodi</i> , <i>Meloidogyne fallax</i> .
13	Melon (<i>Cucumis melo</i>), watermelon (<i>Citrullus vulgaris</i>) and pumpkin (<i>Cucurbita pepo</i>) 0709 93 900 0 0807 11 000 0 0807 19 000 0	The consignment must be free from <i>Bactrocera cucurbitae</i> , <i>Myiopardalis pardalina</i> , <i>Dacus ciliatus</i> , <i>Cuscuta spp.</i> , <i>Cenchrus longispinus</i> .
14	Fresh or chilled Pepper (<i>Capsicum annum</i>), 0709 60 100 0 0709 60 990 0	The consignment must be free from <i>Liriomyza huidobrensis</i> , <i>Frankliniella occidentalis</i> , <i>Candidatus liberibacter solanacearum</i> , <i>Tomato brown rugose fruit virus</i> .
15	Fresh or chilled eggplant (<i>Solanum melongena</i>) 0709 30 000 0	The consignment must be free from <i>Spodoptera frugiperda</i> , <i>Tetranychus evansi</i> .
16	Fresh or chilled asparagus (<i>Asparagus</i>) 0709 20 000 0	The consignment must be free from <i>Spodoptera littoralis</i> , <i>Spodoptera frugiperda</i> , <i>Spodoptera eridania</i> , <i>Frankliniella occidentalis</i> , <i>Bemisia tabaci</i> .
17	Other vegetables (spinach, fennel, artichoke, dill, coriander, basil and mint) 0709 70 000 0 0709 91 000 0 0709 99 500 0 0709 99 900 0	The consignment must be free from <i>Frankliniella occidentalis</i> , <i>Spodoptera spp</i> , <i>Liriomyza spp.</i> , <i>Ditylenchus dipsaci</i> , <i>Meloidogyne chitwoodi</i> , <i>Trips palm</i> , <i>Bemisia tabaci</i> .
18	Mushrooms 0709 51 000 0 0709 52 000 0 0709 53 000 0	The consignment must be free from <i>Ditylenchus destructor</i>

	0709 54 000 0	
	0709 55 000 0	
	0709 56 000 0	
	0709 59 000 0	

6. Phytosanitary quarantine requirements for cereals, grains of legumes and oilseeds and their processed products

6.1. Cereals, grains of legumes and oilseeds and their processed products must be free from *Ambrosia psilostachya*, *Ambrosia artemisiifolia*, *Ambrosia trifida*, *Iva axillaris*, *Acroptilon repens*, *Cenchrus spinifex*, *Solanum carolinense*, *Solanum triflorum*, *Solanum elaeagnifolium*, *Bidens pilosa*, *Ipomoea lacunosa*, *Solanum rostratum* and *Cenchrus longispinus*.

6.2. Cereals, grains of legumes and oilseeds and their processed products can be imported only in transport vehicles that will exclude spillage or in fresh and air-permeable packing materials. The requirements of this clause do not apply to products in packaging intended for consumption.

6.3. Imported grains, legumes and oilseeds for food, fodder and technical purposes must not be used for planting.

6.4. Special requirements for cereals, legumes, oilseeds and their processed products are listed in table 3.

Table 3

Special phytosanitary requirements for cereals, grains of legumes and oilseeds and their processed products

№	Consignment under quarantine control (by Hs code)	Special phytosanitary quarantine requirements
1	Cereals, legumes and oilseeds 1001 19 000 1001 99 000 1002 90 000 1003 90 000 1004 90 000 0 1005 90 000 0 from 1006 1007 90 000 0 1008 10 000 0 1008 29 000 0 1008 30 000 0 1008 40 000 0 1008 50 000 0 1008 60 000 0 1008 90 000 0 1201 90 000 0 1202 41 000 0 1202 42 000 0 1204 00 900 0 1205 10 900 0 1205 90 000 0 1206 00 910 0 1206 00 990 0 from 1207	The consignment must be free from the weed seeds mentioned in clause 6.1 of these requirements, <i>Zabrotes subfasciatus</i> , <i>Caulophilus latinasus</i> , <i>Caryedon serratus</i> , <i>Trogoderma granarium</i> , <i>Callosobruchus spp.</i>

2	Wheat, meslin and triticale 1001 19 000 1 1001 19 000 2 1001 19 000 3 1001 19 000 4 1001 19 000 5 1001 19 000 9 1001 99 000 1 1001 99 000 2 1001 99 000 3 1001 99 000 4 1001 99 000 5 1001 99 000 9 1008 60 000 0	Considering the requirements of part 1 of this table must be free from <i>Tilletia indica</i> .
3	Maize (Corn) (Zea Mays) 1005 90 000 0	Considering the requirements of part 1 of this table must be free from <i>Cochliobolus carbonum</i> , <i>Cochliobolus heterostrophus</i> , <i>Stenocarpella macrospora</i> , <i>Stenocarpella maydis</i> , <i>Erwinia stewartii</i> .

	2302 50 000 0	
7	Malt 1107 10 990 0 1107 20 000 0	The consignment must be free from <i>Caulophilus latinasus</i> , <i>Trogoderma granarium</i> .
8	Pulves and solid waste, whether or not ground or granulated, from the extraction of vegetable fats and oils 2304 00 000 0 2305 00 000 0 2306 10 000 0 2306 20 000 0 2306 30 000 0 2306 41 000 0 2306 49 000 0 2306 50 000 0 2306 60 000 0 2306 90 050 0 2306 90 110 0 2306 90 190 0 2306 90 900 0	The consignment must be free from <i>Caulophilus latinasus</i> , <i>Trogoderma granarium</i> .

7. Phytosanitary quarantine requirements for fruits and berries

7.1. It is not allowed to import fruits and berries infected with pests that are not detected in the Republic of Azerbaijan, spread in a limited circle and are included in the list of pests that can pose a potential threat to the country under quarantine.

7.2. Special phytosanitary requirements for fruits and berries are listed in table 4.

Table 4

Special phytosanitary quarantine requirements for fruits and berries

№	Regulated articles (by Hs code)	Special phytosanitary requirements
1	Fresh Bananas (<i>Musa</i> spp.), including plantains 0803 10 100 0	The consignment must be free from <i>Ceratitis capitata</i> , <i>Bactrocera dorsalis</i> , <i>Aleurocanthus woglumi</i> .
2	Fresh Avocado (<i>Persea americana</i>), guava (<i>Psidium guajava</i>), mango (<i>Mangifera</i>) 0804 40 000 0 0804 50 000 0	The consignment must be free from <i>Bactrocera dorsalis</i> , <i>Bactrocera cucurbitae</i> , <i>Ceratitis capitata</i> .
3	Fruits of the palm family (<i>Arecaceae</i>), including finger dates or dates, as well as figs, pineapples, mangosteens or garcinias (fresh) 0804 20 100 0 0804 20 0804 30 000 0 0804 50 000 0	The consignment must be free from <i>Ceratitis capitata</i> , <i>Bactrocera dorsalis</i> , <i>Bactrocera cucurbitae</i> .
4	Fresh citrus fruits 0805 10 200 0 0805 10 800 0 0805 21 000 0 0805 22 000 0 0805 29 000 0 0805 40 000 0 0805 50 100 0 0805 50 900 0 0805 90 000 0	The consignment must be free from <i>Ceratitis capitata</i> , <i>Bactrocera dorsalis</i> , <i>Aleurocanthus woglumi</i> , <i>Aleurothrixus floccosus</i> , <i>Unaspis yanonensis</i> , <i>Pseudococcus citriculus</i> , <i>Bactrocera minax</i> , <i>Xanthomonas campestris</i> pv. <i>citri</i> . Import of the consignment from countries where <i>Xanthomonas campestris</i> pv. <i>citri</i> is spread, the following statement must be declared in the phytosanitary certificate: The consignment produced in a pest free production site or place for the <i>Xanthomonas campestris</i> pv. <i>citri</i>

5	<p>Fresh grapes</p> <p>0806 10 100 0 0806 10 900 0</p>	<p>The consignment must be free from <i>Ceratitis capitata</i>, <i>Drosophila suzukii</i>, <i>Bactrocera dorsalis</i>, <i>Cuscuta spp.</i></p>
6	<p>Fresh Papaya (<i>Carica papaya</i>)</p> <p>0807 20 000 0</p>	<p>The consignment must be free from <i>Bactrocera dorsalis</i>, <i>Ceratitis capitata</i>.</p>
7	<p>Fresh apple (<i>Malus spp.</i>), pear (<i>Pyrus spp.</i>) and quince (<i>Cydonia Mill.</i>).</p> <p>0808 10 100 0 0808 10 800 0 0808 30 100 0 0808 30 900 0 0808 40 000 0</p>	<p>The consignment must be free from <i>Ceratitis capitata</i>, <i>Grapholita molesta</i>, <i>Carposina sasakii</i>, <i>Drosophila suzukii</i>, <i>Rhagoletis cingulata</i>, <i>Monilinia fructicola</i>, <i>Bactrocera dorsalis</i>, <i>Numonia pyrivorella</i>, <i>Cydia packardi</i>, <i>Conotrachelus nenuphar</i>, <i>Pseudococcus comstocki</i>, <i>Rhagoletis pomonella</i>.</p> <p>Import of the plants from countries where <i>Monilinia fructicola</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment was produced in a pest free production site or place for the <i>Monilinia fructicola</i></p> <p>or</p> <p>2) the consignment was tested and found free from the <i>Monilinia fructicola</i></p>
8	<p>Fresh apricots, sour and sweet cherries, peaches (including nectarines), plums (<i>Prunus spp.</i>)</p> <p>0809 10 000 0 0809 21 000 0 0809 29 000 0 0809 30 100 0 0809 30 900 0 0809 40 050 1 0809 40 050 9 0809 40 900 0</p>	<p>The consignment must be free from <i>Ceratitis capitata</i>, <i>Grapholita molesta</i>, <i>Carposina niponensis</i>, <i>Drosophila suzuki</i>, <i>Rhagoletis pomonella</i>, <i>Monilinia fructicola</i>, <i>Bactrocera dorsalis</i>.</p> <p>Import of the consignment from countries where <i>Monilinia fructicola</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment was produced in a pest free production site or place for the <i>Monilinia fructicola</i> “</p>

		or 2) the consignment was tested and found free from the <i>Monilinia fructicola</i>
9	Fresh pomegranate (<i>Punica spp.</i>) 0810 90 750 1	The consignment must be free from <i>Ceratitis capitata</i> , <i>Aleurocanthus woglumi</i> , <i>Pseudococcus comstoki</i> .
10	Fresh blueberries (<i>Vaccinium spp.</i>), crab myrtle (<i>Vaccinium uliginosum</i>) and coral (<i>Vaccinium vitis-idaea</i>) 0810 40 100 0 0810 40 300 0	The consignment must be free from <i>Ceratitis capitata</i> , <i>Drosophila suzukii</i> , <i>Trips palmi</i> .
11	Fresh strawberry (<i>Fragaria</i>) 0810 10 000 0	The consignment must be free from <i>Drosophila suzukii</i> , <i>Frankliniella occidentalis</i> , <i>Colletotrichum acutatum</i> .
12	Other fruits, fresh (except fresh pomegranates, blueberries, cranberries, and strawberries) 0810 20 100 0 0810 20 900 0 0810 30 100 0 0810 30 300 0 0810 40 500 0 0810 40 900 0 0810 50 000 0 0810 60 000 0 0810 70 000 0 0810 90 200 0 0810 90 750 3 0810 90 750 9	The consignment must be free from <i>Ceratitis rosa</i>

8. Phytosanitary quarantine requirements for cut branches, flowers and buds suitable for making bouquets or for decorative purposes

8.1. Cut branches, flowers and buds suitable for making bouquets or for decorative purposes must be free from *Spodoptera spp*, *Liriomyza spp*, *Frankliniella spp*, *Chrysodeixis spp*, *Helicoverpa spp*, *Tetranychus evansi*, *Thrips palmi spp*, *Puccinia horiana*, *Scirtothrips dorsalis*, *Bemisia tabaci*, *Phialophora cinerescens*, *Aleurocanthus woglumi*.

8.2. Specific phytosanitary requirements for cut branches, flowers and buds suitable for making bouquets or for decorative purposes are given in table 5.

Table 5

Special phytosanitary quarantine requirements for cut branches, flowers and buds suitable for making bouquets or for decorative purposes

№	Regulated articles (by Hs code)	Special phytosanitary quarantine requirements
1	Cut flowers of chrysanthemum (Chrysanthemum) 0603 19 700 0 0603 90 000 0	The consignment must be free from <i>Didymella ligulicola</i> , <i>Puccinia horiana</i> .
2	Cut flowers of pelargonium (Pelargonium spp.). 0603 19 700 0 0603 90 000 0	The consignment must be free from <i>Cacoecimorpha pronubana</i> , <i>Puccinia pelargonii-zonalis</i> .
3	Cut flowers of the genus Camellia (Camellia spp.). 0603 19 700 0 0603 90 000 0	The consignment must be free from <i>Ciborinia camelliae</i> .
4	Cut flowers of the genus Rosa (<i>Rosa spp.</i>) 0603 11 000 0	The consignment must be free from <i>Frankliniella occidentalis</i> , <i>Scirtothrips dorsalis</i> , <i>Aleurocanthus spiniferus</i> , <i>Aleurocanthus woglumi</i> , <i>Cydia prunivora</i> , <i>Cacoecimorpha pronubana</i>

9. Phytosanitary quarantine requirements for forest materials (wood).

9.1. These rules apply to coniferous forest materials, including spruce (*Picea*), cedar (*Cedrus*), cypress (*Cupressus*), black pine (*Larix*), juniper (*Juniperus*), white pine (*Abies*), false tsuga (*Pseudotsuga*), thuja (*Thuja*), applies to common pine (*Pinus*) and Tsuga (*Tsuga*) genera.

9.2. Coniferous forest materials must be free from *Monochamus alternatus*, *Monochamus carolinensis*, *Monochamus sutor*, *Dendroctonus micans*, *Polygraphus proximus*, *Ips spp.*, *Acleris gloverana*, *Leptoglossus occidentalis*, *Mycosphaerella dearnessii*, *Bursaphelenchus xylophilus*.

9.3. Wood materials must be free of bark and free of holes larger than 3 mm caused by larvae of insects.

9.4. The requirements of clauses 9.2 and 9.3 shall also be met for fiber, sawdust and paper-making wood materials belonging to coniferous (*Coniferales*) trees (except plants of the genera *Pinus*, *Thuja* and *Taxus*).

9.5. Special phytosanitary quarantine requirements for coniferous forest materials (wood) are given in table 6.

Table 6

Special phytosanitary quarantine requirements for coniferous forest materials (wood)

№	Regulated articles (by Hs code)	Special phytosanitary quarantine requirements
1	Coniferous trees (other than plants of the genera <i>Pinus</i> , <i>Thuja</i> and <i>Taxus</i> , their cut branches, including Christmas trees 0604 20 200 0 0604 20 400 0 0604 90 990 0	Considering to the requirements of clause 9.2 must be free from <i>Mycosphaerella gibsonii</i> , <i>Phytophthora ramorum</i> / Import of the plants from countries where <i>Bursaphelenchus xylophilus</i> , <i>Phytophthora ramorum</i> is spread, the following statement must be declared in the phytosanitary certificate: 1) The consignment was produced in a pest free production site or place for the <i>Bursaphelenchus xylophilus</i> , and <i>Phytophthora ramorum</i> or 2) the consignment was tested and found free from the <i>Bursaphelenchus xylophilus</i> and <i>Phytophthora ramorum</i>
2	Firewood of coniferous trees (other than plants of the genera <i>Pinus</i> , <i>Thuja</i> and <i>Taxus</i>), including	The consignment must be free from <i>Bursaphelenchus xylophilus</i> ,

	<p>sawnwood, whether or not debarked (except wood packing material and wood waste), wood shavings, sawdust (except bark)</p> <p>4401 11 000 0 4401 21 000 0 4401 41 000 0 4401 49 000 0 4403 23 120 0 4403 23 180 0 4403 23 920 0 4403 23 980 0 4403 24 200 0 4403 24 800 0 4403 25 100 0 4403 25 900 0 4403 26 000 0 4404 10 000 0 4406 11 000 0 4418 40 000 0</p>	<p><i>Monochamus alternatus</i>, <i>Monochamus carolinensis</i>, <i>Monochamus sutor</i>.</p> <p>Import of the consignment from countries where <i>Bursaphelenchus xylophilus</i>, <i>Phytophthora ramorum</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment originate a pest free production site or place for the <i>Bursaphelenchus xylophilus</i></p> <p>or</p> <p>2) the consignment heat-treated at a temperature of 56 °C for 30 minutes</p>
<p>3</p>	<p>Isolated bark of conifers (except plants of the genera <i>Pinus</i>, <i>Thuja</i> and <i>Taxus</i>)</p> <p>4401 49 000 0</p>	<p>Considering to the requirements of clauses 9.2 and 9.3 of this requirement, the consignment must be heat-treated at a temperature of 56 °C for 30 minutes, and this statement must be declared in the phytosanitary certificate.</p>
<p>4</p>	<p>Pine (<i>Pinus</i>) trees, their cut branches, including branches of Christmas trees</p> <p>0604 20 400 0 0604 90 990 0 4401 11 000 0</p>	<p>The plants must be free from <i>Bursaphelenchus xylophilus</i>, <i>Monochamus alternatus</i>, <i>Monochamus carolinensis</i>, <i>Monochamus sutor</i>, <i>Mycosphaerella dearnessii</i>.</p> <p>Import of the plants from countries where <i>Bursaphelenchus xylophilus</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The plants were produced in a pest free production site or place for the <i>Bursaphelenchus xylophilus</i></p> <p>or</p> <p>2) the plants were tested and found free from the <i>Bursaphelenchus xylophilus</i></p>

<p style="text-align: center;">5</p>	<p>Pine (<i>Pinus</i>) firewood, including peeled or unpeeled sawdust, wood (except wood packing materials and wood waste) wood shavings or sawdust (except bark)</p> <p>4401 11 000 0 4401 21 000 0 4401 41 000 0 4403 21 120 0 4403 21 180 0 4403 21 920 0 4403 21 980 0 4403 22 200 0 4403 22 800 0 4404 10 000 0 4406 11 000 0 4407 11 160 0 4407 11 340 0 4407 11 390 0 4407 11 940 0 4407 11 990 0</p>	<p>Considering to the requirements of clause 9.2 must be free from <i>Monochamus alternatus</i>, <i>Monochamus sutor</i>, <i>Monochamus carolinensis</i>, <i>Bursaphelenchus xylophilus</i>, <i>Mycosphaerella dearnessii</i>.</p> <p>Import of the consignment from countries where <i>Bursaphelenchus xylophilus</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment originate a pest free production site or place for the <i>Bursaphelenchus xylophilus</i></p> <p>or</p> <p>2) the consignment heat-treated at a temperature of 56⁰ C for 30 minutes.</p>
<p style="text-align: center;">6</p>	<p>Pine (<i>Pinus</i>) bark 4401 49 000 0</p>	<p>Considering to the requirements of clause 9.2 must be heat treated at 56⁰ C for 30 minutes, and it must be declared on phytosanitary certificate.</p>

9.6. Forest materials of broad-leaved plants must be free from *Anoplophora glabripennis*, *Anoplophora chinensis*, *Dryocosmus kuriphilus*, *Corythucha ciliata*, *Agilus mali*, *Agilus planipennis*, *Chalara fraxinea* and *Phytophthora ramorum*.

9.7. Special phytosanitary requirements of forest materials of broad-leaved plants are given in table 7.

Table 7

Special phytosanitary quarantine requirements of forest materials of broad-leaved plants

№	Regulated articles (by Hs code)	Special phytosanitary quarantine requirements
<p style="text-align: center;">1</p>	<p>Cut branches of broad-leaved plants 0604 20 900 0 0604 90 990 0 4401 12 000 0</p>	<p>The plant material must be free from <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i>, <i>Ceratocystis fagacearum</i>, <i>Chalara fraxinea</i> and <i>Phytophthora kernoviae</i>.</p>

<p>2</p>	<p>Unbarked wood of broad-leaved species, including fuel materials (except packaging materials)</p> <p>4401 12 000 0 4403 91 100 0 4403 91 900 0 4403 93 200 0 4403 93 800 0 4403 94 000 0 4403 95 000 0 4403 96 000 0 4403 97 000 0 4403 99 000 0</p>	<p>The consignment must be free from <i>Chalara fraxinea</i>, <i>Agrilus planipennis</i>, <i>Phytophthora ramorum</i>.</p> <p>Import of the consignment from countries where <i>Chalara fraxinea</i>, <i>Agrilus planipennis</i> and <i>Phytophthora ramorum</i> is spread, the consignment must be subjected to an appropriate treatment (Fumigation) and it should be stated in the phytosanitary certificate.</p>
<p>3</p>	<p>Unbarked firewood of <i>Betula</i>, including fuel materials (except packaging materials)</p> <p>4401 12 000 0 4403 95 000 0 4403 96 000 0 4404 20 000 0</p>	<p>The plant material must be free from <i>Anoplophora glabripennis</i> and <i>Anoplophora chinensis</i>.</p> <p>Import of the consignment from countries where <i>Anoplophora glabripennis</i> and <i>Anoplophora chinensis</i> is spread, the consignment must be subjected to an appropriate treatment (Fumigation) and it should be stated in the phytosanitary certificate.</p>
<p>4</p>	<p>Ash wood (<i>Fraxinus</i>) unbarked, including fuel materials (except packaging materials)</p> <p>4401 12 000 0 4403 99 000 0 4404 20 000 0</p>	<p>The consignment must be free from <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i>, and <i>Agrilus planipennis</i>.</p> <p>Import of the consignment from countries where <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i> and <i>Agrilus planipennis</i> is spread, the following statement should be declared in phytosanitary certificate:</p> <p>1) The plants are grown in the areas free from <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i> and <i>Agrilus planipennis</i></p> <p>or</p> <p>2) the plant material subjected to an appropriate treatment (Fumigation) against <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i> and <i>Agrilus planipennis</i></p>

<p>5</p>	<p>Unpeeled firewood of plants belonging to the Rosaceae family, including fuel materials (except packaging materials) 4401 12 000 0 4403 99 000 0 4404 20 000 0</p>	<p>The consignment must be free from <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i>.</p> <p>Heat treated at 56 °C for 30 minutes, and it must be declared on phytosanitary certificate</p>
<p>6</p>	<p>Unpeeled firewood of <i>Fagus</i>, <i>Quercus</i>, <i>Castanea</i>, <i>Lithocarpus densiflorus</i>, <i>Castanopsis chrysophylla</i>, including fuel materials (except packaging materials) 4401 12 000 0 4403 12 000 0 4403 91 100 0 4403 91 900 0 4403 93 200 0 4403 93 800 0 4403 94 000 0 4403 99 000 0</p>	<p>The consignment must be free <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i>, <i>Ceratocystis fagacearum</i>, <i>Aromia bungii</i>, <i>Phytophthora ramorum</i>.</p> <p>Import <i>Castanea</i> and <i>Quercus</i> firewood from countries where <i>Ceratocystis fagacearum</i> is spread, the following statement must be declared in the phytosanitary certificate:</p> <p>1) The consignment produced from the plants grown in a production site and (or) places established as free from <i>Ceratocystis fagacearum</i>.</p> <p>or</p> <p>2) the consignment has been subjected to an appropriate treatment against <i>Ceratocystis fagacearum</i></p>
<p>7</p>	<p>Isolated tree bark 4401 49 000 0</p>	<p>Considering the requirements of clause 9.6, must be subjected to an appropriate treatment (Fumigation) and it should be stated in the phytosanitary certificate.</p>
<p>8</p>	<p>Debarked wood of broad-leaved species (except packing materials) 4401 12 000 0 4403 91 100 0 4403 91 900 0 4403 93 200 0 4403 93 800 0 4403 94 000 0 4403 95 000 0 4403 96 000 0 4403 97 000 0 4403 99 000 0</p>	<p>The consignment must be free from <i>Anoplophora glabripennis</i>, <i>Anoplophora chinensis</i> and <i>Agrilus planipennis</i>. Must be subjected to an appropriate treatment (Fumigation) and it should be stated in the phytosanitary certificate.</p>

	4404 20 000 0	
9	Wood chips of broad-leaved plants (wood chips, sawdust) 4401 22 000 0 4401 39 000 0 4401 49 000 0 4404 20 000 0	Considering the requirements of clause 9.6, must be subjected to an appropriate treatment (heat treatment or fumigation) and it should be stated in the phytosanitary certificate.

10. Phytosanitary quarantine requirements applied to other regulated articles imported into the territory of the Republic of Azerbaijan

10.1. Special phytosanitary quarantine requirements applied to other quarantinable products imported into the territory of the Republic of Azerbaijan are listed in table 8 .

Table 8

Special Phytosanitary quarantine requirements applied to other regulated articles imported into the territory of the Republic of Azerbaijan

No	Regulated articles (by Hs code)	Special phytosanitary quarantine requirements
1	Coconuts, Brazil nuts and cashews, fresh or dried, whether or not shelled, peeled or peeled 0801 11 000 0 0801 12 000 0 0801 19 000 0 0801 21 000 0 0801 22 000 0 0801 31 000 0 0801 32 000 0	The consignment must be free from <i>Trogoderma granarium</i> .
2	Other nuts, fresh or dried, whether or not shelled, whether or not in shell 0802 11 100 0 0802 11 900 0 0802 12 100 0 0802 12 900 0 0802 21 000 0 0802 22 000 0 0802 31 000 0 0802 32 000 0 0802 41 000 0 0802 42 000 0 0802 51 000 0	The consignment must be free from <i>Trogoderma granarium</i> .
