Subject: Phytosanitary requirements for importing some seed to I.R.Iran

**Dear Ms. Karola Schorn**

This letter is written following the request of an Iranian student to import some genotypes of Milk thistle (*Silybum marianum*) for research projects; I would like to inform you that for importing seeds of Milk thistle to I.R.Iran, only issuing a phytosanitary certificate is necessary and inspection will be carried out by plant quarantine officials at the customs entry points.

Plant Protection Organization of Iran avails itself of this opportunity to renew to the Federal Ministry for Food and Agriculture of Germany of its highest consideration.

Best regards,

Maryam Jalili Moghaddam  
Head of Plant Protection  
Organization
