

S.I. 1998 No. 9

Plant Pest and Disease (Import Control)
CAP. 266

PLANT PEST AND DISEASE (IMPORT CONTROL) ORDER, 1997

Authority : This Order was made on 30th December, 1997 by the Minister under section 8(2) of the *Plant Pest and Disease (Import Control) Act*.

Commencement: 2nd February, 1998.

1. This Order may be cited as the *Plant Pest and Disease (Import Control) Order, 1997*.

2. In this Order,

“plant part” means any part of a plant, whether or not it is capable of propagation;

“Regulations” means the *Plant Pest and Disease (Import Control) Regulations, 1997*;
[1998/10]

“relevant authority” means the agricultural official in the country from which the planting material, plant product or plant part is imported.

3. Subject to paragraph 4, the importation of planting materials specified in the *First Schedule* for the propagation of crops except tissue cultures and seed is prohibited.

4. Tissue cultures and seed of planting material specified in the *First Schedule* which are certified free of pests by the relevant authority as evidenced by the production of a phytosanitary certificate may be imported by virtue of a permit issued in accordance with the Regulations.

- 5.** The importation of plants and plant parts specified in the *Second Schedule* is prohibited.
- 6.** Notwithstanding the prohibition on the importation of plants and plant parts from countries where the Pink Mealybug is reported to exist, the Chief Agricultural Officer may allow the importation of such plants and plant parts if he is satisfied that the plants and plant parts have been treated against the Pink Mealybug and that there is no evidence of infestation of such plants and plant parts by the Pink Mealybug.
- 7.** The importation of a plant product specified in the first column of the *Third Schedule* is subject to the prohibitions and restrictions set out opposite thereto in the second column.

FIRST SCHEDULE*(Paragraphs 3 and 4)****Planting Materials***

1. Anthurium.
2. Avocado from countries where the Pink Mealybug and the sun blotch virus are reported by the relevant authority to exist.
3. Banana.
4. Cassava.
5. Citrus and its relatives to the tribe *Citrinae*.
6. Cocoa.
7. Coconut.
8. Oil palm.
9. Cotton and its relatives of the genera *Althaea*, *Gossypium*, *Hibiscus*, *Malva* and *Malvaviscus*.
10. Grasses and grains.
11. Mango.
